

A Sound Solution

The NuVo in-wall audio system – the perfect solution when space is a premium.

The NuVo in-wall audio system includes a pair of wall mounted speakers (including brackets) and a powerful 30w amplifier. Featuring two switchable audio inputs, using either a mini jack through the face plate or hard wired from the back, the NuVo audio system is the perfect solution for your classroom installation

Benefits:

- Easy to install where space is an issue
- Control all audio from one control panel
- Fits seamlessly into your existing interactive whiteboard solution

Features:

- 30w in-wall amplifier (inc. wall plate)
- Pair of 40w wall mountable speakers and brackets
- External power supply
- Pair of speaker brackets
